

VC999 TS300

The VC999 TS300 tray sealing machine is ideal for small to medium packaging volumes

The food to be packaged is placed manually in prefabricated trays. The filled trays are then covered with foil and sealed airtight, or evacuated and filled with modified atmosphere gas before sealing (MAP system).

Maximum tray dimensions

Model	VC999 TS300		
Form			
Die-set			
1-up	365x280	280x280	Ø 280
2-up	172.5x280	172.5x172.5	Ø 172.5
Option	(178x227)		
	365x130	—	—
3-up	108x280	108x108	Ø 108
4-up	172.5x130	130x130	Ø 130
Height	100	100	100
Min. tray dimensions	90x90	90x90	Ø 90

Other shapes or multiple tools available.

Technical data

Model	VC999 TS300 (N)
Adjustable sealing time	0 - 5 sec.
Adjustable vacuum	TS300N: electronic
Adjustable gas values	TS300N: electronic
Production output	
Cycles/min. max.	3 - 6
Compressed air connection	6 bar 1/4"
Air consumption per cycle	4-5 NI
Power connection	230/400 V / 50 Hz / 4 kW
Overall machine dimensions	680x1115x1590 mm
Weight	249 kg
